QUAID'S MESSAGE

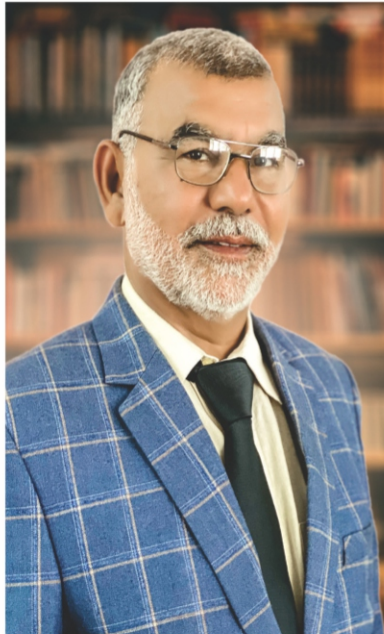

“ You know that the importance of education and the right type of education cannot be over-emphasized. Under foreign rule for over a century, in the very nature of things, I regret, sufficient attention has not been paid to the education of our people, and if we are to make any real, speedy and substantial progress, we must earnestly tackle this question and bring our educational policy and program on the lines suited to the genius of our people, consonant with our history and culture, and having regard to the modern conditions and vast developments that have taken place all over the world.

There is no doubt that the future of our State will and must greatly depend upon the type of education and the way in which we bring up our children as the future servants of Pakistan. Education does not merely mean academic education, and even that appears to be of a very poor type. What we have to do is to mobilize our people and build up the character of our future generations. There is immediate and urgent need for training our people in the scientific and technical education in order to build up future economic life, and we should see that our people undertake scientific commerce, trade and particularly, well planned industries. But do not forget that we have to compete with the world, which is moving very fast in this direction.”

— Quaid-e-Azam Muhammad Ali Jinnah's message at the First National Education Conference, Karachi, 27 Nov-1 Dec 1947

MESSAGE FROM THE PRINCIPAL

Education is for improving the lives of others and for leaving your community and world better than you found it. Our education must meet our social, economic and spiritual needs.

We must equip ourselves with the swords of science and technology to face the challenges of modern world. We should work honestly, wisely and professionally to achieve our goals.

History witnesses no such nation that made its mark without education. Education is not filling of a pail, but lighting of a fire.

True education is not going through a few pages of textbooks but willingness to fight against bigotry, extremism and ignorance. Enlightenment of soul is the real purpose of whole education system.

Govt Graduate College Kot Addu is committed to achieving the highest standards of education. We impart quality education to our students in peaceful educational environment through a dedicated faculty, the best facilities and top notch teaching methods and techniques. We provide our students an ample chance to gain confidence, broaden their vision and enlighten their minds with the best of knowledge. We wish our students to have a sound personality, a solid character, the perception of the modern world and its challenges, a comprehensive Islamic Ideology, a great sense of values, devotion and determination in their spirit. I look forward to a great future and brilliant success for my
